

LFG barrier

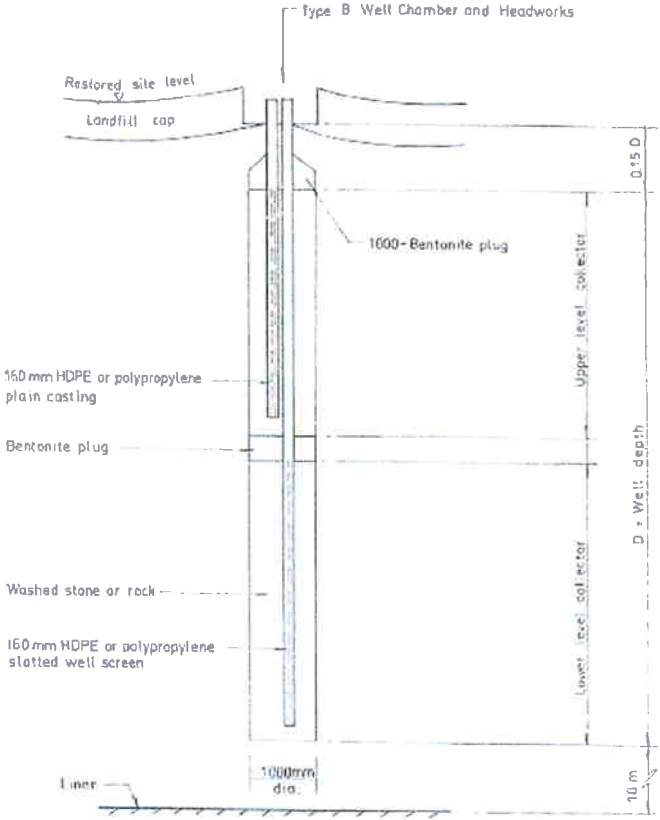

Cross-section of lining and leachate collection system

Liner system as LFG barrier (from top down)

1. Non-woven geotextile cushion (1200g)
2. 2mm high density polyethylene (HDPE) liner
3. 6mm bentonite matting
4. Non-woven geotextile filter (200g)

LFG collection & extraction systems

**GAS ABSTRACTION WELL TYPE 03
FOR INSTALLATION DEPTHS > 60m**

Cross-section of gas abstraction well

Well head & pipeline for extraction and conveyance of LFG

LFG treatment system

Flare for combustion of LFG

LFG utilisation systems

Gensets for power generation using LFG

Ammonia stripping plant using LFG to heat up raw leachate
